

MARIO NANO

MARIO-NANO.COM

Software Engineer with 3+ years of experience building complex websites and single-page applications across a range of technologies. Comfortable working in Agile teams, turning designs into production-ready code, and often taking on QA management responsibilities. Interested in agentic workflows, Spec-Driven Development, and AI-assisted engineering.

"Learning should commence at birth and cease only at death." — Albert Einstein

CERTIFICATES

- Javascript (2021)
- Intermediate Javascript (2021)
- SASS (2021)
- Bootstrap 5 (2021)
- REACT JS (2021)
- PHP (2025)

ICT SKILLS

- TypeScript
- JavaScript
- PHP
- Twig
- ReactJS
- HTML5
- CSS3
- SCSS
- Tailwind
- Craft CMS
- Playwright Test Suite
- Docker
- DDEV
- WSL
- Linux
- npm
- Gulp
- Git
- Azure DevOps
- Figma
- Agile Workflow
- Agentic Development
- Spec Driven Development
- OpenSpec Methodology

WORK EXPERIENCE

05. 2023 - 05. 2026

Software Engineer
YOO AG, Basel

- Built custom PHP backends and TypeScript plugins as full-stack engineer on Craft CMS projects
- Transitioned team workflow from Agile to AI Agentic Spec-Driven Development using the OpenSpec methodology
- Served as QA Manager across several projects, overseeing testing and deployment quality

02. 2023 - 04. 2023

Frontend Developer
SwissQuant AG, Zürich

- Developed TypeScript and React modules for a stock portfolio UI handling high-volume financial transactions
- Engineered unit and functional testing suites for zero-tolerance error handling in an international Agile team.

11.2020 - 02.2023

Independent Study - Web Development

- Completed self-funded online coursework in JavaScript, React, SASS, Bootstrap, and PHP during the COVID-19 pandemic, transitioning career into software engineering.

05. 2017 - 10. 2020

Cable Car Cabin Driver
Schilthornbahn AG, Interlaken

01. 2016 - 04. 2017

Tourist Guide
Basecamp Oulanka, Kuusamo, Finland

Summers 2013, 2014, 2015

Tourist Guide
Voss Guide Service, Voss, Norway

Winters 2013, 2014, 2015

Snowmobile Guide
Perhesafarit, Levi, Finland

04. 2004 - 04. 2013

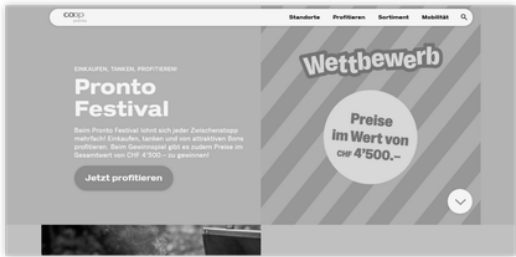

Lead Risk Assessment Manager
Diners Club International, Bratislava, Slovakia

MAJOR FRONT-END PROJECTS:

Coop Pronto Website

coop-pronto.ch

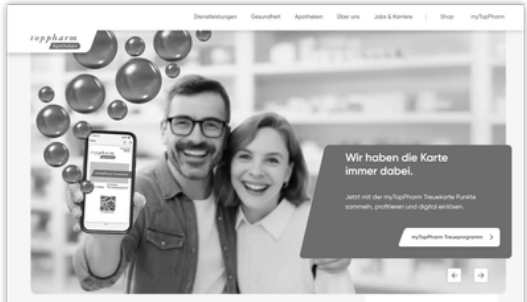

- Built advanced front-end logic to handle complex unit formatting, pluralisation rules, and mathematical combining of ingredients across the entire recipe section.
- Developed the product inventory section of several thousand products , writing the custom cataloguing, filtering, and conditional sorting logic.
- Built key parts of the site—including several visually complex sliders and teasers, and footer — while also acting as QA Manager to test and ensure quality across all site versions.

TopPharm Website

toppharm.ch

- Developed core functional modules, including the contact section, dynamic job boards, global footer logic, and reusable UI components.
- Engineered data architecture to aggregate and render unique data points from over 120 store locations, dynamically generating 120+ localized front-end versions of the site. Caching was a major hurdle to overcome.
- Served concurrently as QA Manager to oversee testing, ensuring seamless deployment across all regional variations.

Verband Schweizer Kantonalbanken

vskb.ch

- Created several visual reusable components
- Wrote the logic to aggregate and correctly display data from 24 different bank branches across each version of the website.
- Built the API aggregation logic and front-end layout to pull and display dynamic news updates on the website.

EDUCATION

**SLOVAK TECHNICAL UNIVERSITY
BRATISLAVA, SLOVAKIA
FACULTY OF ELECTROTECHNICS AND
INFORMATICS (FEI)
2001 - 2003
unfinished due to lack of finances**

**TECHNICAL HIGH SCHOOL
BANOVCE, SLOVAKIA
1994-1998
High School Degree in Industrial Management**

LANGUAGE SKILLS

Slovak native
English - C2
German - C2
Czech - C2
